

## **GUIDE TO PREVENTION OF ANIMAL CRUELTY LAWS**

Amendments to the Prevention of Cruelty to Animals Act (hereinafter “the Act”), N.J.S.A. 4:22-17 et seq., were recently signed into law. The new legal requirements set forth in the Act apply to any individual who owns or has custody or control (hereinafter “caretaker”) of a dog, service animal or an animal that is a pet.

To ensure all dog, pet and service animal owners and caretakers have a basic understanding of these newly enacted legal requirements, a brief, general description of the requirements and prohibitions and a guide to compliance is provided below. The description below also includes a short synopsis of prohibited acts that apply to animals in general, which is provided to ensure that the general public is aware of these restrictions. This brief overview is intended to be a helpful guideline and is not intended to be a substitute for reading the law in its entirety.

### **Unlawful Treatment of Animals**

It is unlawful to expose a dog, pet, or service animal to harsh weather conditions, such as freezing temperatures (32 degrees Fahrenheit or below), excessive heat (90 degrees Fahrenheit or above), rain or snow, for more than thirty minutes when the owner or caretaker of the animal is not with the animal and exposed to same conditions. An owner or caretaker who violates this requirement could be subject to a fine, imprisonment, community service, ordered to pay restitution, and/or possibly have his or her animal seized.

To avoid a violation of this section of the Act, an owner or caretaker must provide his/her animal with appropriate shelter if the animal will be out in harsh weather for longer than thirty minutes. A proper shelter is a structure that is soundly built, in good repair and provides the animal with adequate ventilation, water, light, and space to move and sit. In addition to these standard requirements, the shelter must also be enclosed, have a solid roof, solid walls with a single opening, a floor that is not the ground, insulation, dry bedding, and a windbreak at the entrance that is sufficient to keep the animal dry and maintain the animal’s normal body temperature when the animal is exposed to freezing temperatures and/or inclement weather. When the animal is exposed to excessive heat, the structure must also have adequate shade or a cooling area by natural or artificial means to allow the animal to maintain a normal body temperature.

See N.J.S.A. 4:22-17.2 and 17.5.

## **Evacuation Orders**

When State or local officials issue an order of evacuation due to emergency conditions, the owner or caretaker of a dog, pet or service animal must make every effort to evacuate with the animal. An owner or caretaker who violates this requirement could be subject to a fine, imprisonment, community service, ordered to pay restitution, and/or possibly have his or her animal seized.

To avoid this violation, the owner or caretaker must make reasonable efforts to evacuate with his or her animal. If it is not possible to evacuate with the animal, the owner or caretaker should (1) deliver the animal to a safe area not impacted by the emergency, or (2) secure the animal in an indoor area that is clear of hazards and is as protective of the dog, pet, or service animal as possible under the circumstances and alert local emergency responders to the animal's location.

See N.J.S.A. 4:22-17.2

## **Cruelly Restraining a Dog**

It is unlawful for any person to cruelly restrain a dog. An owner or caretaker who violates this requirement could be subject to a fine, imprisonment, community service, ordered to pay restitution, and/or possibly have his or her animal seized.

To avoid a violation, an owner or caretaker cannot tether:

- (1) a nursing female dog or a dog less than four months old;
- (2) a dog that is outdoors between the hours of 11 p.m. and 5 a.m.;
- (3) a dog in an unoccupied building or in a vacant property;
- (4) a dog in a manner that does not permit the dog continuous access to water;
- (5) a dog in a manner that exposes the dog to harsh weather conditions, including, but not limited to, freezing temperatures, excessive heat, rain or snow, for more than 30 minutes;

(6) a dog by means of a choke collar, prong collar, head harness, or any other type of collar, harness, or similar device other than a properly fitted body harness or buckle-type collar;

(7) a dog by using a chain with metal links that are more than one-quarter of an inch thick, or a tether, collar, or harness that is attached to a weight;

(8) a dog with another dog;

(9) a dog with a tether that is less than 15 feet in length or does not permit the dog to walk at least 15 feet in any one direction, except when the dog is indoors with its owner or caretaker; or

(10) a dog with a tether that permits the dog to reach another dog or an object or location that poses a risk of entanglement, strangulation, drowning, or other harm to the health or safety of the dog.

Please note that paragraphs 2, 9, and 10 above shall not apply if the dog's owner or caretaker is in the presence of the dog and can see the dog at all times while the dog is tethered.

Additionally, enforcement of paragraph 2 will begin in February 2019.

See N.J.S.A. 4:22-17.3.

### **Unlawful Confinement**

The Act prohibits an owner or caretaker of a dog, pet or service animal from confining the animal in any structure, room, area, or container that is not a proper shelter. An owner or caretaker who violates this requirement could be subject to a fine, imprisonment, community service, ordered to pay restitution, and/or possibly have his or her animal seized.

To avoid a violation of this requirement, an owner or caretaker must provide his or her animal with a shelter that is soundly built, in good repair and provides the animal with adequate ventilation, water, light, and space to move and sit.

Proper shelter does not include a crawl space under a building, such as under steps, a deck, or a stoop, or space under a vehicle. Proper shelter also does not include the inside of a vehicle for a length of time that a person should reasonably know poses an adverse risk to the health or safety of the animal. Additionally, a proper shelter cannot be made from pressure treated wood containing the chemicals arsenic or chromium, have a floor consisting of wire or chain-link, have openings that a paw, hoof or foot of an animal can pass through, or be made of cardboard or other materials that are easily degraded by the elements.

Please note that a person may confine a dog, pet or service animal temporarily in an animal carrier or crate for the purpose of transporting, exhibiting or training the animal so long as the animal is inside the vehicle when being transported, the animal can easily turn around in a full circle and lie down in the carrier or crate, and the top of the animal's head does not touch the ceiling of the crate or carrier.

See N.J.S.A. 4:22-17.4 and 17.5.
