RESOLUTION 2019-R-77

MUNICIPAL SUPPORT FOR RESPONSIBLE PET OWNERSHIP PROGRAMS

RECOGNIZING that cats and dogs are an integral and valuable part of all communities, and contribute to the well-being of humans, whether as companions, service animals, or therapy pets, and

UNDERSTANDING that municipalities have an important role in ensuring the well-being of animals while balancing the needs of pet owners and non-pet owners.

WHEREAS legislators and municipal officials report that the number of calls from citizens about animal related issues rival any other issue(s);

WHEREAS there are approximately 2.2 million owned dogs and 2.5 million owned cats in New Jersey;

WHEREAS New Jersey was the first state in the nation to develop an innovative state-wide spay/neuter program and all proceeds from the sale of Animal Friendly License Plates are used to reimburse participating veterinarians for spaying and neutering surgeries;

WHEREAS State responsibility for promoting responsible pet care and ensuring that pets do not suffer due to abuse, neglect, or lack of proper care in kennels, pet shops, shelters, and pounds (animal facilities) is vested in the Office of Animal Welfare within the New Jersey Department of Health and Senior Services;

WHEREAS The New Jersey Society to Prevent Cruelty to Animals (NJSPCA) and municipal Animal Cruelty Investigators (ACIs) are responsible for investigating and acting as officers for the detection, apprehension, and arrest of offenders against the animal cruelty laws;

WHEREAS New Jersey mandates training requirements for animal control officers and Animal Cruelty Investigators;

WHEREAS New Jersey impounds over 100,000 animals per year in animal shelters and impoundment facilities;

WHEREAS approximately 37% of the animals that enter New Jersey's impoundment facilities are euthanized, at a rate of around 3000 every month;

WHEREAS free-roaming unvaccinated cats and dogs present a potential health threat to humans through the spread of such zoonotic diseases as rabies, leptospirosis, toxoplasmosis, roundworms, animal bites, and environmental contamination from animal feces;

WHEREAS stray and unwanted pets place an enormous financial burden on municipalities and non-profit humane agencies organized to care for these animals; (To calculate an average per animal cost for your municipality, divide the total shelter expenditures - municipal animal control and shelter expenses -by the total number of animals served per year);;

WHEREAS it is more humane and cost-effective to reduce the number of unwanted animals than it is to impound and euthanize unwanted or unclaimed dogs and cats;

WHEREAS all dogs are required to be licensed in the municipality where they are housed and the majority of municipalities also require licensure of cats. (Current vaccination against rabies is a pre-requisite to licensure);

WHEREAS all municipalities are required to canvass their residents to locate unlicensed dogs;

NOW THEREFORE, BE IT RESOLVED, by the Township Council of the Township of Maple Shade to take the following steps with regard to our municipal responsibilities with the intent of making Maple Shade a truly sustainable community.

- Enforce all animal and rabies control statutes and regulations, including the requirement to pick up and impound all stray dogs and cats, excepting stray and feral cats in managed TNR programs.
- Work to improve the enforcement of animal cruelty statutes.
- Educate our community, including school children, about their responsibilities towards the pet animals they chose to keep.
- Increase the percentage of licensed animals through ease of licensing and licensing enforcement measures.
- Identify and work to implement best practices to prevent unwanted breeding through effective animal control, availability of low-cost pet spaying and neutering services, public education, and pet-friendly rental and senior housing.
- Identify alternatives to euthanasia of adoptable companion animals, including utilizing foster homes, adoption networks and providing remedial behavior training services to existing and future owners.
- Assist in identifying resources to improve the conditions and increase the capacity of animal shelters and impoundment facilities and animal control services.

RESOLUTION 2019-R-78

SUSTAINABLE LAND USE PLEDGE

WHEREAS, land use is an essential component of overall sustainability for a municipality; and

WHEREAS, poor land-use decisions can lead to and increase societal ills such as decreased mobility, high housing costs, increased greenhouse gas emissions, loss of open space and the degradation of natural resources; and

WHEREAS, well planned land use can create transportation choices, provide for a range of housing options, create walkable communities, preserve open space, provide for adequate recreation, and allow for the continued protection and use of vital natural resources; and

WHEREAS, Given New Jersey's strong tradition of home rule and local authority over planning and zoning, achieving a statewide sustainable land use pattern will require municipalities to take the lead;

NOW THEREFORE, BE IT RESOLVED, by the Township Council of the Township of Maple Shade, County of Burlington to take the following steps with regard to our municipal land-use decisions with the intent of making Maple Shade a truly sustainable community. It is our intent to include these principles in the next master plan revision and reexamination report and to update our land-use zoning, natural resource protection, and other ordinances accordingly.

Regional Cooperation - We pledge to reach out to administrations of our neighboring municipalities concerning land-use decisions, and to take into consideration regional impacts when making land-use decisions.

Transportation Choices - We pledge to create transportation choices with a Complete Streets approach by considering all modes of transportation, including walking, biking, transit and automobiles, when planning transportation projects and reviewing development applications. We will reevaluate our parking with the goal of limiting the amount of required parking spaces, promoting shared parking and other innovative parking alternatives, and encouraging structured parking alternatives where appropriate.

Natural Resource Protection - We pledge to act to protect the natural resources of the State for environmental, recreational and agricultural value, avoiding or mitigating negative impacts to these resources. Further, we pledge to complete a Natural Resources Inventory when feasible to identify and assess the extent of our natural resources and to link natural resource management and protection to carrying capacity analysis, land-use and open space planning.

Mix of Land Uses - We pledge to use our zoning power to allow for a mix of residential, retail, commercial, recreational and other land use types in areas that make the most sense for our municipality and the region, particularly in downtown and town center areas.

Housing Options - We pledge, through the use of our zoning and revenue generating powers, to foster a diverse mix of housing types and locations, including single- and multi-family, for-sale and rental options, to meet the needs of all people at a range of income levels.

Green Design - We pledge to incorporate the principles of green design and renewable energy generation into municipal buildings to the extent feasible and when updating our site plan and subdivision requirements for residential and commercial buildings.

Municipal Facilities Siting - We pledge, to the extent feasible, to take into consideration factors such as walkability, bikability, greater access to public transit, proximity to other land-use types, and open space when locating new or relocated municipal facilities.

PLEDGE OF MUNICIPAL SUPPORT FOR NEW JERSEY'S WILDILFE ACTION PLAN

WHEREAS, New Jersey is home to a rich diversity of wildlife and ecologically significant natural communities,

WHEREAS, New Jersey's wildlife and wild places are under threat from development, fragmentation, invasive species and the impacts of people,

WHEREAS, the populations of mammals, birds, invertebrates, fish, reptiles and amphibians that live in and migrate through New Jersey find themselves clinging to smaller and smaller pieces of wild clean lands and aquatic habitats,

WHEREAS, it is more cost-effective to prevent species from becoming imperiled than it is to recover them once their populations have declined,

WHEREAS, a naturally functioning and healthy ecosystem represents a healthy environment for NJ wildlife and our citizens,

WHEREAS, the NJ Division of Fish and Wildlife, other state and federal agencies, and many partners in conservation have worked together to develop a state Wildlife Action Plan for the benefit of biologists, wildlife experts, municipal leaders, land stewards, non-profit organizations, educators, planners, researchers, outdoor recreation enthusiasts, landowners and all the people who know the wild places of New Jersey State,

WHEREAS, the New Jersey Wildlife Action plan is a comprehensive action agenda for the conservation of native wildlife, the restoration of important lands and water, and public education targeting the needs of rare wildlife in New Jersey,

WHEREAS, the residents of, and visitors to, New Jersey also enjoy and benefit from New Jersey's wildlife and wild spaces.

NOW THEREFORE, BE IT RESOLVED by the Township Council of the Township of Maple Shade, County of Burlington to include these principles in our public lands management, our environmental resources inventory and to inform the next master plan revision and update our zoning accordingly with the intent of making Maple Shade an ecologically sustainable community:

-We will identify imperiled species, critical habitat and unique ecosystems in our Environmental Resource Inventory.

-Acknowledging that it is more cost-effective to protect species than recover species, we will protect populations of rare and imperiled species that live and breed in, and migrate through, the municipality and the habitats they depend upon.

-Because habitat integrity is critical to healthy biodiversity we will manage publicly owned lands in accordance with wildlife management actions laid out in the New Jersey Wildlife Action Plan and will promote the management of all protected lands to promote biodiversity.

-We will protect wildlife habitats and maintain connectivity of habitat when formulating an open space acquisition strategy, open space stewardship plans and through the municipal master plan including planning and zoning ordinances.

-We will seek to minimize disturbance of critical wildlife populations and their habitats from human activities, subsidized predators and invasive species.

-When possible and appropriate, we will work with neighboring municipalities to implement the aforementioned principles across municipal boundaries.

-When possible and appropriate, we will strive to monitor and implement appropriate management of municipal easements to ensure native vegetation and wildlife takes precedence over invasive and/or exotic species.
