Kyle Wagner

**Director of Community
Development & Zoning Officer**

All Commercial Business Establishments,

Please be advised that the Township of Maple Shade is working diligently to keep the Township clean and free from blight properties. That being said the Township is strictly enforcing the Ordinance / Code Chapter 152 Property Maintenance Sub Section 152-14 Location and Enclosure of Commercial Dumpster for Owners and Occupants. We are providing a direct link to the code here: <https://ecode360.com/32395680> Also a Zoning Permit is required for dumpster location, Materials used, and area to be designated. The Township does understand that Businesses may have small lots or no areas for these requirements, however please contact The Township to develop alternatives that may be available. This letter of Requirements will also be online under the Zoning section of the website MapleShade.com with further information and examples of proper dumpster enclosures. The Township is requiring Businesses to begin this process by October 1st, 2025. Failure to comply with Township Ordinance / Code may result in future Court Action.

Thank you and have a wonderful day!

Kyle Wagner

Chapter 152. Property Maintenance

Article I. General Provisions

§ 152-14. Location and enclosure of nonresidential dumpsters; use limited to owner or occupant.

Nonresidential commercial premises (including hotels and motels) which utilize dumpsters for the disposal of solid waste and recycling shall, at the property owner's sole cost and expense, locate and enclose such containers in accordance with the following standards:

- A. The dumpster(s) shall be located in the rear or to the side of the commercial structure, provided the solid waste haulers can access the dumpsters and remove the solid waste safely. If a commercial establishment has access to and can locate a dumpster(s) in the rear of the structure safely, then the dumpster(s) shall be located to the rear of the structure. Garbage or trash dumpsters shall not be maintained in front yards unless permitted by site plan approval from the Planning Board or Zoning Board of Adjustment for temporary construction or renovation purposes.
- B. The dumpster(s) shall be appropriately located so as not to interfere with sight triangles, on-site circulation, required setbacks, landscaping, parking, and any other requirements that may have been imposed as part of the site plan approval for the premises, and shall be placed on a concrete pad.
- C. Each commercial establishment shall provide appropriate enclosures for each dumpster or container, which shall be properly screened from adjacent property and from the public view.
- D. Each bin must be regularly emptied of its contents so that its contents cannot be transferred off the lot, directly or indirectly, by natural forces such as surface water or wind, and so that it does not overflow and become unsightly and malodorous.
- E. For properties that do not currently locate their dumpsters in the rear or to the side of the structure, the property owner shall relocate the dumpster and enclose same, in accordance with the provisions of this section, within six months of the effective date of this section.
- F. The Zoning Officer for the Township of Maple Shade shall inspect all commercial properties after the six-month period has expired to determine whether this section has been complied with. The Zoning Officer shall have the authority to determine whether the dumpsters have been properly located in the rear or to the side of the structure, and whether the dumpsters have been adequately enclosed. Commercial property owners may contact the Zoning Officer to obtain assistance in complying with this section.
- G. If the Zoning Officer determines that the dumpsters have not been appropriately placed and enclosed, enforcement and abatement shall take place as generally provided under this chapter, unless the dumpsters are placed within the right-of-way and create an immediate danger to the public, in which case the Police Department may take immediate action to cause the removal of the dumpsters.
- H. No person shall dump trash or debris in a private dumpster of a commercial or industrial business without the express written consent of the business owner or his designee.

ZONING PERMIT

Application (Township Code 205-81)
