BUREAU OF FIRE PREVENTION

SERVING MOORESTOWN and MAPLE SHADE

PREVENTION THROUGH EDUCATION

A Message to Maple Shade Residents and Business Owners

We are pleased to announce that Maple Shade Township and Moorestown Fire District No. 2 have entered into a shared services agreement to provide fire prevention and inspection services to the Maple Shade community. As we move forward with this partnership, we'd like to introduce the Bureau of Fire Prevention and our approach to serving the Maple Shade community.

Our motto, **"Prevention Through Education,"** reflects our commitment to promoting fire safety through education, cooperation, and community involvement. Fire inspections are not simply about identifying code violations, but also about providing guidance, answering questions, and working together to identify and correct potential fire and life-safety hazards.

Our goal is to establish positive working relationships with residents and business owners while helping to provide a safe environment for everyone, including customers, visitors, and responding firefighters.

We encourage you to contact our office with any questions or concerns regarding fire prevention or fire safety. Our staff is here to assist you, and we look forward to becoming an active part of the Maple Shade community.

Our office is open Monday through Friday, from 8:00 AM to 4:00 PM.
